Season Massage

Energizing and revitalizing

Treat yourself to a massage tailored to the rhythm of the seasons!

Winter

Your body deserves special attention during this time. With a decrease in morale and motivation, holiday excesses, and a decrease in your self-esteem... This massage combines Chinese acupressure techniques and Swedish effleurage to become your winter ally. It revives your vital energy and allows you to regain confidence and a positive outlook. It's enveloping and gentle, precisely what we need during a period when we enjoy taking our time, slowing down, and pampering ourselves.

Deep tissue Massage

firm and invigorating

Discover the Deep Tissue massage, specially designed to reach deep into the muscle fiber.

Combined with sports massage, the slow and precise movements bring you a great feeling of lightness. You feel the knots and adhesions release, and your skin becomes more supple. Many benefits accompany this massage: a decrease in muscle pain (especially in the dorsal area), a reduction in inflammation, an improvement in the healing process (e.g., scar tissue).

If you enjoy firm and intense massages, you're in for a treat!
